

# **Technical Requirements for Cybersecurity**

This document describes the hardware, software, and network requirements needed for PLTW Cybersecurity (SEC). It is divided into the following sections:

**Hardware Requirements** 

**Allow Lists** 

Software Requirements

Additional PLTW Core Training Requirements

Questions

## Hardware Requirements

IMPORTANT: Please note that the following hardware requirements are common across ALL courses in the PLTW Computer Science program.

A computing platform is required for each teacher and for each student taking a computer science course. A desktop or laptop is the preferred platform.

| Computer<br>Specifications | Minimum   | Recommended                       |
|----------------------------|---|-----------------------------------|
| Processor                  | Intel® or AMD processor 2.0 GHz +   | Intel® or AMD processor 2.3 GHz + |
| RAM                        | 4 GB +  | 8 GB +                            |
| Hard Drives                | 250 GB +  | 250 GB +                          |
| Video                      | Graphics 128 MB +   | Graphics 256 MB +                 |
| Operating System           | Windows 7, Windows 8.1, Windows 10, Windows 11 64-bit, or Apple device with macOS 13+ |                                   |
| Misc.                      | External mouse  |                                   |
|                            | Headphones or earbuds   |                                   |

**Distance Learning**: To accommodate distance learning environments, students may use a Chromebook in place of the recommended desktop or laptop. A Chromebook is not recommended for the teacher's computing platform.

| Minimum  |  |
|--|--|
| 1.0 GHz +  |  |
| 4 BG +   |  |
| 11 inch +  |  |
| 16 GB +  |  |
| Chrome OS current version (updated continuously) |  |
| Wireless enabed (cellular/LTE not required)      |  |
| Graphics Integrated                              |  |
| Bluetooth®                                       |  |
| USB port and drivers                             |  |
|  |  |

Each classroom must have a digital projector with a screen (or equivalent classroom display hardware) including the appropriate cables, adapters, or software to connect to the teacher device.

**Note:** Other equipment and supplies required for your classroom can be purchased from the PLTW Store. Please refer to the PLTW Investment Tool for more information.

## **Allow Lists**

All teacher and student computers must have access to the internet. To comply with the Children's Internet Protection Act (CIPA), an unrestricted internet is prohibited at school sites. IT departments and/or school districts configure *allow lists* which contain approved domains, URLs, and IP addresses that school computers can access.

Collaborate with the appropriate group to confirm the allow list has been configured for all teacher and student computers.

NOTE: The Allow List below is a comprehensive list for all courses in the computer science program.

General PLTW and CS Program Allow List.

**Distance Learning**: If your school issues Chromebooks to students for distance learning, make sure to incorporate the Distance Learning Allow List as well.

## Software Requirements

Your IT department or your school district usually installs software on school computers. Collaborate with the appropriate group to confirm the required software has been installed for all student and teacher computers, including the computer you will be using during core training.

#### **Common Software Requirements**

The following are the software requirements for all courses in the CS pathway.

Chrome or Firefox browser, latest version

End-of-Course Assessment software:

Installation Guide for Windows

Installation Guide for Mac

Installation Guide for iPads

Installation Guide for Chromebooks

# Additional PLTW Core Training Requirements

In addition to the hardware, network, and software requirements identified above, PLTW Core Training has a few recommendations to make your learning experience the best possible.

Request administrative rights to your device(s). While this is not always possible, it is very useful to have if you need help troubleshooting issues.

#### **Hardware for Core Training**

A desktop or laptop is required for core training. See "Hardware Requirements" section.

A system with a full-size monitor is recommended and a system with two monitors, one of which can be a laptop screen, is ideal.

#### **Allow List for Core Training**

If you are using your own computer and have open access to the internet, you will not need to configure the allow list for core training. If you are using a desktop or laptop provided by your school, you will most likely need to have the allow list configured on your device. Refer to the "Allow Lists" section for details.

#### **Software for Core Training**

Refer to the "Software Requirements" section for details.

### **Participant Supply List**

You will receive a PLTW Core Training Welcome and Equipment Kit for your course. Your kit will be delivered to the address you provided at registration. It will include a welcome kit and a PLTW Computer Science Notebook.

## **Questions?**

Our friendly PLTW Solution Center team members are here to answer any of your questions. Call us at 877.335.7589 for live, one-on-one support Monday through Friday 7:00 a.m.–9:00 p.m. ET. You can also email us at <a href="mailto:solutioncenter@pltw.org">solutioncenter@pltw.org</a>.
