

PLTW Gateway 2023-24

Computer Specifications

May 2023 v1

The PLTW curriculum utilizes powerful, industry-based software. To prepare for a successful school year, please work closely with your IT department to ensure your computer hardware meets or exceeds the specifications below.

To implement any of the PLTW Gateway units, each student and teacher must have a PC, Mac, or Chromebook. The matrix below shows the supported hardware for each unit. In addition, the App Creators unit requires an Android tablet for every two students. The list of software needed for PLTW coursework is [here](#).

*The App Creators unit requires each student and teacher to have a PC, Mac, or Android-enabled Chromebook with access to the Google Play store **AND** an Android tablet or iPad. Amazon Fire tablets are not compatible with App Creators. It is highly recommended that students have a second display/monitor for use with their PC or Mac to allow for simultaneous programming and curriculum access.

**The Green Architecture unit requires the use of Autodesk Revit software, which requires more substantial computing hardware than all other PLTW Gateway units. Please refer to the Green Architecture PC and Mac specifications at the [bottom of this document](#).
